

## GRILLING SAFETY FOR HOMEOWNERS

Summer grilling isn't cancelled! July is National Grilling Month. While grilling is a great summer activity, it can be dangerous if not done properly. A grill placed too close to anything that can burn is a fire hazard for your policyholders. In 2014-2018, Gas grills were involved in an average of 8,900 home fires per year. ServiceMaster DSI is here to help. Here are some simple tips and you will be on the way to safe grilling.

**If your policyholder experiences a fire this summer, make sure to refer the nation's leading provider of fire restoration, ServiceMaster DSI. From start to finish we will be there helping your client every step of the way**

### 5 GRILLING FIRE SAFETY TIPS FOR HOMEOWNERS

- Keep your grill clean by removing grease or fat buildup from the grills and in trays below the grill.
- Keep the grill at least 10 feet away from the property while in use.
- Before storing your grill, make sure it has completely cooled down.
- Keep children and pets at least 3 feet away from the grill area.
- Never leave the grill unattended.
